February 2025, Doha, Qatar – Brinc, the global venture capital and accelerator powerhouse, is making waves at Web Summit Qatar! As part of its ongoing global expansion, Brinc is hosting an exclusive VIP networking event at the prestigious Marriott Marquis City Centre, Doha. Mark your calendars on Tuesday, February 25th – this is the premier gathering for investors, startups, and industry leaders shaping the future of tech.

Bringing together key executives to drive progress in innovation during [Web Summit Qatar](#) week, Brinc's [VIP networking event](#) will feature a panel discussion on "Venture Investing: Global to Regional Perspectives."

Since its inception in 2014, Brinc has been at the forefront of accelerating groundbreaking innovations aligned with its core investment thesis of Decentralization and Decarbonization. Through its programs, Brinc provides funding, mentorship, and resources to empower entrepreneurs, helping them scale their businesses and drive meaningful impact globally.

In MENA, Brinc runs the Mashroo3i program with Tamkeen, helping early-stage Bahraini entrepreneurs refine their business models through mentorship and workshops before pitching to investors. It also powers Omantel Innovation Labs, supporting Omani tech startups at every stage of growth. Additionally, Brinc leads the SuiHub Global Accelerator in partnership with SuiHub and CoinList, strengthening its commitment to entrepreneurship and Web3 innovation in the UAE.

Bashar Aboudaoud, Co-Founder & COO, commented: "Innovation thrives where collaboration meets experience. At Brinc, we empower founders, companies, and governments across MENA with the tools, expertise, and network to turn bold ideas into impactful ventures. Together, we're building the future—one startup at a time."

Brinc's expanding presence and ongoing partnership with Web Summit Qatar reaffirm its commitment to driving innovation and supporting founders in the region.
