

The future of Business is next generation
Customer Experience driven by Generative AI,
and that is where Sundew comes in.

Doha, Qatar | February 2025

The world is at an inflection point. The next great shift is not just digital, it is intelligent, autonomous, and driven by Generative AI. At **Web Summit Qatar 2025**, **Sundew** takes the stage as a force shaping this revolution.

The Age of Intelligent Business Begins Now

AI is not about replacing human ingenuity, it is about amplifying it. Sundew harnesses **Generative AI, data intelligence, human-centric experience design and cloud-native solutions to redefine how businesses operate, compete, and grow.**

From **data driven insights for decision-making to hyper-personalized customer experiences**, we are **building solutions** that unlock exponential value for startups, SMBs, and enterprises alike. The secret lies in how **we deep-dive into business challenges** and use technology to drive business growth.

Riding the wave of democratizing AI and Innovation. Making the Impossible Accessible.

For too long, AI has been a privilege of tech giants. **We are changing that.** Sundew is making cutting-edge AI accessible to businesses of all sizes without the complexity, high costs, or technical barriers.

- **Customer engagement** that creates deeper connections & brand loyalty
- **Visual design service** that elevates user experience
- **Generative AI-driven automation** that brings new possibilities
- **AI-powered analytics** that transform raw data into strategic foresight
- **Native application engineering** for seamless, high-performance digital experiences

We build **intuitive, scalable, and high-impact** solutions that businesses need to thrive in an AI-first world.

Exceptional Customer Experience at the Core

Technology alone does not create transformation. **Experience does.**

Sarbajit Das, founder & CEO of Sundew emphasized, “At Sundew, we blend AI, deep data intelligence, and **world-class design thinking** to create seamless, **intelligent customer experiences** that feel natural and intuitive. Our **native application engineering and visual design expertise ensure** that every interaction is frictionless, efficient, and visually stunning.”

The result is not just technology that works. It is technology that **feels human, anticipates needs, and drives engagement like never before.**

Beyond Innovation. A Culture of Relentless Reinvention.

Disruption is not a buzzword. It is a **way of thinking.**

Our seasoned leadership in AI, data science, and digital transformation joins forces with a fearless, dynamic team that thrives on agility, creativity, and first-principles thinking. This is **our edge**, and it is how we help businesses stay ahead of the curve.

Meet Us at Web Summit Qatar 2025

We are here to connect with **visionaries, innovators, industry experts, startups, and enterprises** who want to embrace AI-driven digital transformation that drive customer experience. **Let's talk, collaborate, and build the future together.**
